

As the demand for cloud computing, AI applications, and high-power processors and accelerators grows, datacenters are evolving to accommodate new high-power requirements.

Combine your Alpha Enclosure with Alpha power and you have an optionally integrated, reliable and efficient power plant.

A precision regulated power supply/charger, back-up battery, low voltage battery disconnect, output metering, LED status and Form C alarm contacts are all pre-wired and calibrated within the unit for ...

Majortel DC Power systems (MTS) meet or exceed most equipment application requirements for today's growing new technology networks. The MTS system includes telecom grade switch-mode 48V ...

The utility model relates to an electric power tech field, concretely relates to 48V communication power cabinet.

In this article, we present a stackable and interleaving multiphase high voltage inverting buck-boost controller that will resolve all the requirements/challenges to meet today's 5G telecom equipment ...

Designed for interior use, CBN50U48A-1 Indoor CyberShield(TM) FTTx System supplies continuous 48 VDC to local power network interface devices (NID), cable telephone modems, wireless base ...

Designed for interior use, CBN50U48A-1 Indoor CyberShield(TM) FTTx System supplies continuous 48 VDC to local power network interface devices ...

Using the right remote DC power management solution, the network operations center can quickly restart locked-up remote network servers to ensure that the network is fully operational around the ...

TP48200A (TP48400A) TP48200a-HD15A1 TP48200A-HT15D3 is an AC/DC outdoor power system that configures 48V/50A rectifier modules to supply rated of 200A (400A) output current, with various ...

They feature power supply, distribution, and protection equipment as well as radio systems and passive or active cooling. Contact us today to learn about all the options and to find a solution that is right for ...
