

Our Battery Energy Storage Systems (BESS) are tailored for North American and European markets. Containerized solutions of customizable designs seamlessly integrate a wide range of LFP battery capacities.

Cutting-edge 5MWh liquid-cooled ESS in a standardized 20ft container. Features 12 high-voltage battery clusters, modular design, and advanced safety systems for optimal performance, extended lifespan, and ...

The 5MWh container energy storage system is a super cool solution that seamlessly combines different parts, like a Lithium iron phosphate battery, Battery Management System, Gaseous Fire Suppression System, ...

With a three-level explosion-proof design, it ensures safe and intelligent operation. The integrated thermal management system keeps the temperature difference between the battery cells below 3°C. It has multi-level ...

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power stations, power grid ...

The 5MWh Container Energy Storage Liquid-Cooling Solution is designed for large-scale energy storage applications, including renewable energy integration, grid stabilization, and providing reliable power for ...

The 5MWh liquid-cooled battery energy storage container is built for large-scale projects that demand high capacity, stable performance, and long service life. It is widely deployed across utility, grid, and commercial ...

The 5MWh BESS comes pre-installed and ready to be deployed in any energy storage project around the world. We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end ...

The 5MWh Air-Cooled Container Energy Storage System is a reliable, high-performance solution for industrial and commercial applications. It features easy transport, installation, and maintenance, along with real-time ...

The 5MWh ESS is a turnkey energy storage solution designed for industrial and commercial applications. It combines high-capacity battery modules with a reliable PCS inverter system, all within IP55-rated, fire ...
