

Operating from a state-of-the-art 8000 square meter manufacturing facility equipped with a comprehensive sheet metal production line, Zhuwei stands out for its unwavering commitment to ...

Modular rectifier cabinet, 300KW and 600KW optional, can be combined with ATESS PCS to form a DC coupling solution, suitable for large industrial scenarios.

Engineered for precision power control, our custom inverter cabinets support OEM/ODM projects with IP66 protection & thermal management

By seamlessly integrating leading brands hybrid inverters into the IP55-protected battery cabinet, a compact, easy-to-install, and high-performance turnkey energy storage system is achieved. This ...

Available in stainless (shown), painted steel, or aluminum Fully seam-welded or knock-down/flat pack styles Custom battery racks, either fully welded or bolt-up Integrated thermal management as ...

The transformer-isolated Galaxy Series Rugged Inverters are designed for harsh environment rail, work train, and trolley applications.

This energy storage cabinet boasts an advanced All-in-One integrated technology, seamlessly combining PCs, inverters, Battery Management System (BMS), and Energy Management System ...

The PowerBase is a robust energy storage system on a steel frame with the footprint of a standard ISO 20-foot container. It comes pre-wired and pre-configured to reduce installation cost and delivery time, ...

The company's main business includes the design, research and development, production, sales, and technical services of battery inverters, maximum power point tracking controllers, solar panels, as ...

ELECTRICAL OUTPUT CHARACTERISTICS - STORED ENERGY MODE. EFFICIENCY (Input/Output)
No limitation within allowable ambient temperature.
