

60w solar street light wholesale in hamburg germany

Where are solar street lights made?

Our company specializes in the design and manufacture of solar street lights. We feature a state-of-the-art research and development center in Dresden, a sales and marketing office in Shenzhen, China, and a 10,000-square-meter manufacturing facility in Dongguan, China.

Why should you choose a solar street light manufacturer?

Working with a solar street light manufacturer like DEL ILLUMINATION for large-scale projects offers several advantages, including access to customized lighting solutions, high-quality products, and extensive experience in project management.

How long do solar street lights last?

Our solar street lights are designed to last up to 25 years with minimal maintenance. Regular maintenance includes cleaning the solar panels, checking battery health, and ensuring the LEDs are functioning properly. We provide a detailed maintenance schedule and guidelines to keep the lights operating efficiently.

Where is solar street light supply chain management based?

Our team in Shenzhen, China's LED hub, excels in solar street light supply chain management with over 14 years of manufacturing expertise, a robust global logistics network, extensive distribution capabilities, and responsive after-sales service, fully leveraging China's industry strengths.
