

Durable power cabinets for solar batteries and inverters. Safe, compact, and efficient energy storage for off-grid systems.

This system powers large 3-phase homes and workshops, handling high-demand loads like 3-phase ducted air conditioning, power tools, EV charging, pools, spas, and more.

Meets all Australian Standards for Remote Area Solar Systems, including the stringent requirements of the new AS-5139 battery standard. Cabinets are built and tested in our Darwin workshop to complete ...

For UPS systems there is design and engineering that will need to be done so it is best to book a site inspection or enquire directly with our team by filling out the form, emailing sales@upss or ...

This air-cooling outdoor cabinet is now available on the market with a 30kW hybrid-coupled system, capable of both on-grid and off-grid operations. Additionally, H30 could be programmed to discharge ...

With smart monitoring via Pandora and a 10-year Australian warranty, the PX30 offers a complete, reliable, and space-efficient solution that makes stepping into commercial energy storage effortless.

GoodWe's ESA 30kW/60kWh all-in-one outdoor cabinet, designed for small to medium size commercial and industrial (C& I) energy storage applications, is a compact, easy-to-install, and high-performance ...

This power package can intelligently combine solar, diesel generators and battery storage to deliver an efficient and reliable power supply, whether it be on-grid, or off-grid.

Sigenenergy 30kW All-in-One Storage System, 3 Phase Includes: 1 x 30kW SigenStor Controller, 3 Phase 2 - 6 x 8kWh SigenStor Batteries

Power Hub 30 Commercial | Single Or Three Phase | All-In-One Off Grid Solar System \$90,700.00
