

Discover the leading solar energy companies in Austria for 2025. This comprehensive guide features global players and local specialists offering photovoltaic systems, mounting solutions and solar ...

Apr 2, 2012; Austria aims to achieve a 100% renewable electricity production by 2030 with ...

Austria's solar energy sector is poised for a major transformation with updated government subsidy guidelines taking effect on January 1, 2025. As part of the latest Austria ...

In 2024, Austria achieved another year of record photovoltaic (PV) deployment, adding 2.51 GW of new capacity and bringing cumulative installations to 9.4 GW (DC). PV generation reached approximately ...

Austria is well positioned to leverage its strengths in energy and electrical engineering, electronics, mechanical engineering, digital systems, and other PV-related industries to play a globally ...

This report provides an in-depth analysis of Austria's PV market and developments over the past year. 2023 was a landmark year for PV installations in Austria, with a total of 2.6 GW of new photovoltaic ...

October 2025 brings an important opportunity for homeowners and businesses in Austria: The third funding call for photovoltaic systems opens its doors and offers attractive financial ...

The expansion of PV in Austria is progressing. Sonja Wogrin and Alexander Konrad from the Institute of Electricity Economics and Energy Innovation at TU Graz explain how the grids need ...

The Austrian government has decided to introduce a "Made in Europe" bonus for PV projects above 35 kW in size with solar modules that are manufactured in Europe.

Much of that is large hydropower (around 60%), but in the past several years, wind has grown to 11% and PV to over 7%. Most of Austria's recent PV growth is in the residential segment, ...

Austria aims to achieve a 100% renewable electricity production by 2030 with 1,000,000 homes having solar panels fitted by that date. 11 TWh of extra photovoltaics will be needed above 2021 levels.
