

How many solar modules are exported from China in 2022?

Exports of solar modules from China to the rest of the world have increased 34% year-on-year, growing from 85 GW in the first half of 2022 to 114 GW in the same period this year, which is almost as much as the total exported over the whole of 2021.

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

Which country exports the most PV modules in 2022?

The European Union was the biggest destination for China's PV exports in 2022, buying nearly \$23 billion worth of products, up 113 percent year-on-year. This is equivalent to about 84 GW of modules, more than half of China's total module exports in 2022.

Does China Export solar panels?

China has at least 80% of the global market share in solar manufacturing capacity, making Chinese exports an important dataset for tracking the clean energy transition. In the first half of 2023, exports of solar panels from China grew by 34%, with 114 GW shipped worldwide, compared to 85 GW in the same period last year.

China's Photovoltaic Module Exports to Asia-Pacific: A Look at the Solar Energy System Market Trends in 2024 29 / 2024.Nov In September 2024, China exported approximately 3.86GW of ...

Create profitable strategy to export Solar modules with Top Solar modules exporting importing countries, Top Solar modules importers & exporters based on 642,095 export shipment ...

China's total module exports from January to July 2025 reached 148.6 GW, down 2% YoY from 151.48 GW. In July 2025, the top five single-country importers of Chinese modules were, in ...

According to Tan Youru, an analyst at BloombergNEF, China exported 212 GW of solar cells and modules in the first 10 months of 2023, some 19 percent more than exports in the whole of ...

Solar PV Global Supply Chains - Analysis and key findings. A report by the International Energy Agency.

InfoLink's customs data shows that China exported about 23.38 GW of PV modules in March 2025, up 44% MoM but down 5% YoY from 24.51 GW. China's total module exports reached ...

Analyze 45,900 Solar Pv Module export shipments till Nov-25. Export data includes Buyers, Suppliers, Pricing, Qty & Contact Phone/Email.

Chinese solar manufacturers exported 61.9 GW of solar modules in Q1 2025, reflecting an 8% year-on-year (YoY) decline compared to Q1 2024's shipments of 67.62 G

Exports of solar panels from China increased by 34% in the first half of 2023 compared to the same period last year.

Export value of solar PV modules worldwide 2024, by country Export value of solar photovoltaic modules worldwide in 2024, by leading country (in million U.S. dollars)
