

Venezuelans awoke Friday to a major power outage in the capital, Caracas, and several states. President Nicolas Maduro's government blamed the outage, which it said began about 4:50 a.m., on ...

An energy crisis in Venezuela has resulted in blackouts for a decade in most of the country, and 15 years in the western state of Zulia. Several Venezuelan states experience blackouts frequently, and outages occur daily in the western part of the country. Infobae stated in August 2024 that "unofficial estimates" are that Venezuela has about 200 daily power outages, with frequent complaints to Corpoelec, the state-run power company.

Several neighborhoods in Caracas were again without electricity several hours after power was restored from the 30 August blackout. No explanation for the outages was provided as of 2 September, [7] but ...

CARACAS: Venezuela's capital Caracas and much of the rest of the country experienced a blackout early on Friday (Aug 30), though power was set to gradually return, the government said,...

When large parts of Caracas went dark in the early hours of the morning, the outage appeared sudden, surgical, and brief. Within minutes, US helicopters were reportedly landing in the ...

CARACAS - Electricity returned to Caracas and other parts of Venezuela on Saturday after a blackout plunged much of the country into darkness on Friday, although Reuters witnesses ...

Caracas and central areas have been mostly shielded from power cuts. Past electricity crises led the Hugo Ch#225;vez government to draw up plans to expand supply with other sources ...

Venezuelans awoke Friday to a major power outage in the capital, Caracas, and several states.

Power had returned to some parts of Venezuela on Friday evening after capital Caracas and much of the rest of the country were plunged into a blackout that the government blamed on ...

Trump said the US used "certain expertise" to cut power in Venezuela while capturing its president. Officials alluded to cyber operations and a host of military capabilities. Analysts said there...

Venezuela is gradually restoring electricity after a widespread blackout lasting more than 12 hours on August 30, 2024. The blackout affected the whole country, plunging millions of Venezuelans into ...
