

Democratic republic of the congo energy storage policy updates

What is the electricity access rate in the Democratic Republic of Congo?

The public version of the resulting report of the effort is available here. The Democratic Republic of Congo's national electric-ity access rate is estimated at 19%. Less than 1% of the rural population and 41% of the urban population has energy access. Of the country's 10 million house-holds,only 1.6 million have have access to electricity.

What is the government's vision for power generation in Congo?

The government's vision is to increase the service level to 32 percent by 2030. Lack of access to modern electricity services impairs the health,education,and income-generating potential of millions of Congolese people. Most power generation development is directed and funded by mining companies seeking to power their facilities.

What is the energy potential of the DRC?

The DRC has immense and variedenergy potential,consisting of non-renewable resources,including oil,natural gas,and uranium,as well as renewable energy sources,including hydroelectric,biomass,solar,and geothermal power.

How will the DRC meet the ELEC-Tricity challenge?

The DRC aims to connect 32% of the country to elec-tricity by 2030. Meeting this challenge will require co-ordinated efforts from various stakeholders, support-ive policies and regulations, and technical assistance support to prospective projects in order to attract in-vestments.

In the Democratic Republic of the Congo, political and economic challenges mean \$44B in external investment is required to achieve its 2030 emissions reduction targets.
