

Distributor of single-phase folding containers for field operations

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar arrays, reducing reliance ...

SEA BOX, a U.S. based small business, specializes in the design, customization, and manufacturing of ISO containers and modular buildings for both commercial and military applications.

COLLAPSECON containers are collapsed at speed by the COLLAPSECON Operating Station, the only automated solution on the market. It is designed to seamlessly integrate into operations at scale, ...

In maritime operations, SeaFold containers deliver substantial cost savings for one-way cargo shipments through more efficient loading and unloading procedures. Their design allows for additional stowage ...

Quick Deployment Solar Systems - particularly those employing foldable solar storage containers - are revolutionary. They overcome the speed, location, and exposure limitations that ...

The repositioning of empty containers is one of the most complex problems in global freight distribution today. There are few balanced trade routes and larger ocean vessels have increased the need for ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

We distribute for, or carry, almost every module manufacturer under the sun. If you're looking for JA Solar, Mission, Astronergy, Trina, Qcells, SEG, Adani - give us a ring. All of our modules are tariff ...

"By providing containers that operate on standard power sources, we've made it easier for companies to implement effective cold storage without the need for specialized electrical setups."
