

GB battery buildout hit 5.2 GW in Q1 2025. This report breaks down new projects, rising durations, and how portfolios are scaling across the market.

This article emphasises the top 10 energy storage companies in the United Kingdom, which are critical participants in the development of the infrastructure necessary to future-proof the ...

UK's grid-scale energy storage, primarily battery-based, has grown almost sevenfold in capacity between 2018 and 2023. Grid-scale energy storage saw a significant increase in capacity additions in ...

This post investigates the state of the UK battery storage pipeline, year-to-date figures and an insight into the appetite to develop over time. Battery storage is essential for providing the ...

THE UK National Wealth Fund (NWF) has joined two private investment firms in committing a total of £163,500m (US\$671m) towards three grid-scale battery storage facilities across ...

England and Scotland are set to add new grid-scale battery energy storage system (BESS) projects after recent project approvals and contract awards.

The new completed capacity brings the UK's total fleet of operational grid-scale BESS to 7,582MW by power rating and 11,369MWh by capacity. Only February has seen more capacity come ...

From experimental grid-balancing pilots less than a decade ago to now leading Europe in installed and planned battery energy storage system (BESS) capacity, the UK has cemented its ...

Discover the latest advancements in UK grid-scale energy storage, including lithium-ion, vanadium flow, iron flow, and hydrogen technologies.

Detailed info and reviews on 33 top Energy Storage companies and startups in United Kingdom in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.
