

# Is there a power outage at the communication base station in Equatorial Guinea

Dozens of the signatories and residents were imprisoned for nearly a year, while internet access to the small island has been cut off since then, according to residents and rights groups.

We, the undersigned organizations, and members of the #KeepItOn coalition are alarmed at reports which indicate the province of Annobón in Equatorial Guinea has been cut off ...

In this video, we delve into the story of Annobón Island, a remote island in Equatorial Guinea, and its yearlong struggle with an internet blackout.

The Moroccan company Somagec, which activists allege is linked to the president, confirmed the outage but denied having a hand in it. The AP could not confirm a link.

The island, affected by the negligence and mismanagement of the Electricity Society of Equatorial Guinea (SEGESA), has been embroiled in a prolonged period of power outages, leaving ...
