John B. Goodenough, born in 1922, received his BA in mathematics from Yale University in 1943 while serving in World War II as a USAAF meteorologist and went on to earn his MS (1951) and PhD ...

By investigating the magnetic properties of various oxides, Goodenough formulated the rules for magnetic interactions in solids based on crystal structure and chemical bonding.

The National Academy of Engineering (NAE) will bestow John B. Goodenough of The University of Texas at Austin with the highest honor in the engineering profession for the ...

UT Austin's largest ECE student org that combines social, academic, and professional!

Goodenough and Braga are continuing to advance their battery-related research and are working on several patents. In the short term, they hope to work with battery makers to develop and ...

John B. Goodenough Energy Storage Lecture Series There are currently no events scheduled. Check back soon for more details.
