

Going beyond a typical accelerator, LIHE is the ground-breaking translation engine from medical technology innovation to clinical and commercial adoption within St Thomas' Hospital campus, ...

The company will actively promote the field test and pilot operation of the complete solution for photovoltaic power generation monitoring based on PLC technology, and help the digital ...

Hubs can leverage Civilian Power's Communal Grid API to eliminate the guesswork for homes & businesses to understand what current (and potential) Distributed Energy Resource (DER) devices ...

The company's production and supply of orders on hand, the bidding and procurement of the State Grid and the Southern Power Grid, and the signing of other customer orders were greatly delayed, ...

The amalgamation of distributed energy resources-based microgrids to the conventional power system is giving rise to a new power framework. Nevertheless, the grids' control, protection, operational ...

When you're looking for the latest and most efficient Lihe Micro Southern Power Grid for your PV project, our website offers a comprehensive selection of cutting-edge products designed to meet your ...

But what, exactly, will we be doing in LIHE, you ask. Simply put, our one metric for success is how many patients are positively impacted by the MedTech innovations we support.

Lihe Micro PLC not only has in-depth applications in the fields of smart grid and energy efficiency management, but also is widely used in many emerging fields such as smart home, smart ...

Lithium helide is a compound of helium and lithium with the formula LiHe. The substance is a cold low-density gas made of Van der Waals molecules, each composed of a helium atom and ...

The London Institute for Healthcare Engineering (LIHE), part of the vision for St Thomas' MedTech Hub, is a joint initiative led by the School of Biomedical Engineering & Imaging ...

LIHE hosts the King's MSc in MedTech Innovation & Entrepreneurship, embedding students within the vibrant MedTech ecosystem and providing students with unrivalled access ...

Because of the volatility of micro-grid power supply and the fluctuation of electricity load, energy storage is an important way to cut and fill valley and make full use of energy, which makes it ...

With climate extremes becoming the new normal - like that brutal July heatwave that fried California's grid -

isn't it time we rethought our approach to energy distribution? Enter Lihe Microgrid, the ...

To receive help from LIHEAP... Households must be at or below 60% of Rhode Island's Median Income Levels that are set each program year. See the current guidelines ...

When you're looking for the latest and most efficient Lihe micro energy storage for your PV project, our website offers a comprehensive selection of cutting-edge products designed to meet your specific ...

In one of the most central locations in the city, LIHE acts as the hub of MedTech activity for London. Our event spaces are tailored to the needs of the MedTech industry, able to cater for ...
