

Longi photovoltaic panel double-sided size diagram

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

Electrical and mechanical installation information will be introduced in this installation manual, so please read and understand the information before installing LONGi modules. In addition, this manual also ...

The application level of LONGi Solar module is Class II, which can be used in systems operating at ≥ 50 V DC or ≥ 240 W, where general contact access is anticipated;

LONGi Solar PV modules pass the most stringent PID tests before leaving the factory, and the negative electrode of the module usually does not need to be grounded, so it can be compatible with isolated ...

Meta Description: Discover how Longi's double-glass photovoltaic panel size drawings optimize solar projects. Explore technical specs, installation benefits, and why 83% of commercial installers now ...

The LONGi Photovoltaic Modules Installation Manual provides essential safety and installation guidelines for PV modules, emphasizing the need for qualified personnel to perform installations.

For framed PV module, the clamp must overlap the module frame at least 8 mm (0.32 inch) but no more than 11 mm (0.43 inch). The cross section of clamp can be adjusted if the module is securely fastened.

This manual elaborates on installation and safety use information for PV power generating modules (hereinafter referred to as module) of LONGi Solar Technology Co., Ltd. (hereinafter referred to as ...

Explore the new Hi-MO X6 Artist Ultra Black solar panel by LONGi, featuring a 360-degree pure black appearance, high-efficiency HPBC technology, and bifacial design. ...
