

Argentine conglomerate Alcaal Group has signed an MoU with Chad's Ministry of Finance and Ministry of Energy for a 200MW solar PV with a battery storage component located near the capital city of ...

It's 45°C in N'Djamena, and a local hospital's diesel generators just sputtered out. Now imagine instead a sleek, shipping-container-sized system quietly keeping life-saving equipment ...

Discover how cutting-edge supercapacitor technology is transforming energy management in N'Djamena and why it matters for Africa's renewable energy transition.

A novel integrated floating photovoltaic energy storage system was designed with a photovoltaic power generation capacity of 14 kW and an energy storage capacity of 18.8 kW/100 kWh.

An MoU between Axian Energy, Green Energy Solutions and Chad's ministry outlined a 100 MW solar and 50 MWh storage project aimed at strengthening national electricity access.

The project will also pioneer utility-scale energy storage in the country, incorporating a 4MWh Battery Energy Storage System (BESS), 18km transmission line and a substation funded with EUR6.35 million ...

We focus exclusively on energy storage and speak for the entire industry because we represent the full value chain range of energy storage opportunities in our own markets and internationally.

Wait, no - it's not all doom and gloom. The government's new Energy Storage Incentive Program offers 15% tax breaks for systems exceeding 500kWh capacity [3]. Combine this with plunging battery ...

Chad has one of Africa's highest solar penetration rates, a result of a small power system with just 12% electrification, as large-scale solar and storage projects gather pace around N'Djamena ...

Discover how this 50 MW project is reshaping energy security in Central Africa and creating opportunities for solar-storage integration.
