

New Energy Large-Scale Energy Storage Project

WUHAN, China, Sept. 19, 2025 /PRNewswire/ -- As a pioneer in big-batteries technology, EVE Energy has set a new industry milestone, building on its prior success in both launching and...

Three non-lithium energy storage projects came online in August, Rho Motion said, the largest of these being a 100MW/400MWh flow battery project in China, the Poly Flow Chuxiong ...

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are accelerating ahead ...

In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record growth in 2024 ...

When Tesla unveiled its next-generation energy storage systems--Megapack 3 and the new Megablock--on September 15, 2025, it marked a pivotal moment in the evolution of utility-scale ...

The New York project includes the deployment of a 5MW / 20MWh standalone energy storage system, designed to support grid reliability, peak-shaving, and market participation under ...

China's 600 MW compressed air energy storage plant proves grid-scale power storage can scale without lithium or battery minerals.

How are startups advancing energy storage for the clean energy era? Discover 10 Battery Storage Startups to Watch in 2026 and their cutting-edge solutions! From utility-scale BESS and ...

The GSL is an energy storage research and testing facility that will accelerate development of next-generation grid energy storage technologies that are safer, more cost effective, ...

SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered -- on time and at massive scale. With proven expertise, deep resources and full lifecycle ...
