

More than 60 speakers lined up Thursday to speak to the City of Ottawa's Agricultural and Rural Affairs Committee over a proposal to build a vast electrical storage facility in West Carleton.

The proposed Project is in the feasibility stage and consists of installing battery modules, some additional power equipment, light civil, safety, and security infrastructure.

Battery storage systems are a game-changer in the shift towards cleaner energy sources like wind and solar power. They enable you to harness renewable energy and store it for later use, such as when ...

A massive energy storage facility to be located in rural west-end Ottawa was recently approved by city council, but remains a contentious project among locals in the area.

A city committee has passed new regulations establishing land use policy for companies looking to build battery energy storage systems (BESS) in Ottawa.

Trail Road Battery Energy Storage Systems is a 150 MW battery storage project with 600 MWh of energy storage, located in the City of Ottawa, Ontario. Evolgen has partnered with AOPFN ...

As Ottawa aims for net-zero operations by 2040, smart storage solutions will play a pivotal role in achieving this target while maintaining energy affordability and reliability.

A city committee passed new regulations Thursday that lay out the ground rules ...

Gatineau-based energy company Evolgen is looking to build a battery energy storage system (BESS) in the community of South March in a project the company says will help address a ...

On May 9, 2024, the IESO announced that ten proposed BESS projects were selected, totaling 1,784 megawatts (MW) of energy storage, including two to be located in rural west Ottawa.

A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on...
