

Stable operation to underpin the efficient and stable production; A compact structure with small footprint makes it convenient for the arrangement and use of the production line; The curing ...

Plate Link Chain Curing Line, Find Details and Price about Plate Link Chain Curing Line from Plate Link Chain Curing Line - LUO YUAN Photovoltaic Equipment Co., Ltd. Qi Dong

The curing assembly line employs manipulators to automatically ...

The curing assembly line employs manipulators to automatically handle modules, coordinating with the chain plate conveyor for seamless automatic transmission and curing of the modules.

Suzhou Bo Yang is a professional manufacturer of solar photovoltaic equipment, we have many years of experience in the industry to provide you with high-quality solar photovoltaic production equipment ...

In the field of photovoltaic module manufacturing, the curing process is a critical step determining the lifespan and reliability of modules. As the core step in photovoltaic encapsulation ...

Description FUNCTIONAL DESCRIPTION Conduct laminated conveying of the framed modules on the curing line. When the modules are stacked or taken out to a certain extent, the curing line will step ...

Technical Description PLATE-CHAIN-TYPE CURING LINE Equipped with safety protection panel on both sides to make sure stable operation The width of chain plate could cover modules to ensure ...

Correct framing of the laminates provides mechanical strength to the photovoltaic framing modules and facilitates their subsequent installation.

The surface of the plate chain is flat to make sure uniform force TransOmission chain enables automatic oil injection Technical Parameters Operation Power-AC 380V 3-phase 5-wire system of 50Hz/60Hz ...

The rotation motor uses a high-torque motor, controlled by a variable frequency drive, ensuring smooth rotation and precise positioning.
