

Photovoltaic panel installation bidding contract

Do solar projects need an EPC contract?

In our experience, most utility-scale solar projects use an EPC Contract. An operation and maintenance agreement: This is usually a medium- to long-term Operating and Maintenance Agreement (O&M Agreement) with an Operator. The term of the O&M Agreement will vary from project to project.

Is a contract price a factor in the bankability of a solar project?

Price is also a consideration but is usually considered separately from the bankability of the contract because the contract price (or more accurately the capital cost of the solar facility) relates to the bankability of the project as a whole.

How do you finance a solar project?

Financing and security agreements with Lenders to finance the development of the project: Most utility-scale solar projects will require debt funding.
