

Storage can replace thermal generation in constraint markets, easing the grid and supporting Portugal's 2040 phase-out target. Storage facilities can effectively deliver essential voltage and frequency ...

esVolta, LP, an emerging leader in utility-scale battery energy storage, has officially commenced operations for three battery storage projects in Texas. These projects, which began operations in ...

With Texas being one of the nation's leaders in energy storage growth, now is the time for businesses to capitalize on this momentum and take control of their energy future.

Nofar USA, a subsidiary of Nofar Energy, and Qcells USA, a subsidiary of Hanwha Qcells, have signed an agreement to develop and construct two energy storage projects in the US ...

Canadian Solar and Sunraycer have announced two new battery energy storage projects totaling 503 MWh in Texas, supporting ERCOT's grid reliability and advancing renewable integration. ...

Large capacity additions of energy storage (5 GW) over the course of one year in Electric Reliability Council of Texas (ERCOT) region helped outpace rising energy demand. Energy storage ...

Atlas Energy Storage won 503 MWh large-scale energy storage orders in Texas, USA, demonstrating its international project delivery capacity and market competitiveness.

The future of Portugal's power grid lies not only in generating more clean energy but in managing it intelligently. Storage is both the brain and the muscle of this new grid.

This area helps translate research into practical clean energy solutions from hydrogen innovation to next-generation storage systems, aligning with Europe's climate goals and accelerating global ...

David Lilleflore, CEO of Sunraycer, said: "Partnering with e-STORAGE on the Lupinus projects represents a significant step forward in Sunraycer's mission to advance sustainable energy ...
