

Price of 40-foot photovoltaic shipping containers used at US airports

Should you buy a used 40ft shipping container?

Cost-Effective: The biggest advantage of purchasing a used 40ft shipping container is the significant cost savings. A new container can cost thousands of dollars, while used containers are often available at a fraction of the price. **Durability:** Shipping containers are designed to be incredibly tough.

What is a 40ft shipping container?

A 40ft container is standardized globally for easy stacking and compatibility with ships, trucks, and trains. Our 40ft shipping containers are available in both Standard and High Cube (HC) variations, offering flexibility to suit different storage needs. So, what's the difference? The key distinction lies in their height.

How much does it cost to deliver a container?

Buying the container is only step one. Real costs often come from delivery, setup, and compliance. Example: Delivering a 40ft container from the Port of Newark to Pittsburgh (370 miles) may cost \$1,600+ in transport and unloading fees. A flatbed truck can only deliver if the ground is ready. If not, you'll need site prep.
