

The installations are scheduled for completion in December 2025. Sun Siyam has set targets of reaching 50 per cent renewable energy usage by 2030, applying a scalable solar model ...

Its small, dispersed population, imported fuel dependency, and excellent sunlight make solar energy an ideal solution for both grid-tied and off-grid electrification.

The Accelerating Renewable Energy Investments and Sustainable Energy (ARISE) project was initiated with the objective of scaling-up solar PV in Maldives by encouraging private sector investments ...

Project Solar City will be the largest energy project in the Maldives. Only 4km from Male/Hulhumale, Solar City demonstrates the viability of integrating intermittent renewable energy into island grids.

Moving from a fossil-based to a renewable-based energy model is the best way to make electricity cheaper for everyone, reduce the fiscal risks, and protect this pristine island paradise.

The Maldives invites bids for a new 1.5 MW rooftop solar project across 11 islands, part of the ARISE program. Learn about the tender, PPA details, and EIB support.

Fenaka, in partnership with the Ministry of Climate Change, Environment and Energy, has officially launched the Magey Solar program, an ambitious initiative aimed at harnessing solar ...

With a 2 MWp floating solar PV plant and a 3 MWh battery storage system, the Soneva Secret resort project will result in 900,000 to 1,000,000 liters of diesel savings per year, leading to ...

These include the 2021 Maldives Energy Act, the 2018 national energy roadmap and its 2024 update, and the establishment of the Utility Regulatory Authority, which has been supporting ...

Javaahirumaage Solar Project is a 30 kWp Solar project, commissioned in August 2015. The Solar project was installed at a house. The system is still fully functional and generating and exporting ...
