What is a solar curtain wall?

The company's ' solar curtain wall ' covered the entire side of a building with plastic solar film encased in glass. This installation was expected to provide 1.5 kW of power. Unfortunately, the company filed for bankruptcy in 2012 but they did help to further the solar power curtain concept. Another option comes from a company called SolarGaps.

Are solar curtains a good idea?

The company also claims that the fabric used in the solar curtains helps control the temperature of your home and is easy to clean. Although these high-tech variations of solar curtains sound like a pretty cool idea, they will definitely be more expensive than the reflective foil curtains.
