

The Jinko Solar JKM535M-72HL4-TV is a high-performance bifacial solar module designed for commercial and utility-scale systems. Using N-type mono PERC half-cell technology, it delivers ...

With a maximum efficiency of 20.75% and positive power tolerance of 0~+3%, this module ensures reliable energy generation in diverse conditions. It is designed to withstand harsh weather, making it ...

Specifications included in this datasheet are subject to change without notice.

Specifications LONGi reserves included the right in of this final datasheet interpretation.(NU are subject V01 to change 20250603) without notice.

All you need to know about the 535M-72HL4-TV solar panel including rating, cost, efficiency, and warranty terms.

As of Q2 2023, solar farms using this panel reported 18% higher energy yields compared to standard models. Let's unpack what makes this photovoltaic module stand out in today's crowded renewable ...

Designed with advanced N-type bifacial technology, this module captures sunlight from both the front and rear sides, significantly boosting energy yield compared to standard monofacial panels.

Easily integrated with inverters, microinverters, and grid-tie systems, this solar panel delivers reliable and sustainable energy performance. Whether you're upgrading your current solar array or starting ...

The risen Solar Titan series, ranging from 535W to 560W, is engineered with PERC Technology, ensuring module efficiency of up to 21.4%. Specifications include various models (RSM110-8-535M ...

Greentech Renewables supplies LONGi Solar Domestic 535W 144 Half-Cell Silver Bifacial Solar Panel, LR5-72HBD-535M DOM and other pre-qualified solar equipment from LONGi Solar through our ...
