

Trina Solar grid-tie system packages are pre-engineered solar kits that allow you to choose from a selection of solar panels matched with a variety of solar inverters.

Browse and compare solar inverters from Trina Solar US. Use this guide to compare solar inverter products and understand which is best for your installation.

Designed to maximize the utilization of your solar energy system, this inverter boasts an impressive power output of up to 12.0 kW (DC) and 8.0 kW (AC). With its efficiency rating of up to 97.2%, you ...

With an innovative bundling of modules, inverters and racking, Trina's C& I Solutions delivers higher power gains and lower LCOE.

Trina Solar 500W Vertex modules employ cells based on 210-mm silicon wafers. Which inverter fits Trina Solar's vertex modules? Mainstream inverter suppliers around the world have launched high ...

Based on Multi-busbar technology for better light trapping, lower series resistance, improved current collection and enhanced reliability. Reduce installation cost with higher power bin and efficiency. ...

Equipped with 3 MPPT and 3 string inputs, the TRH10K-T2 inverter is capable of handling a wide range of solar panel configurations, enabling optimized power generation no matter the condition. Having a ...

Which products are you interested in? I understand that the information submitted in this form will be transmitted and stored. More information can be found in the privacy policy.

Powered by the next-generation TOPCon technology, this advanced upgrade delivers exceptional conversion efficiency, outstanding stability, and long-lasting durability across a wide range of ...

TrinaPro is the result of decades of experience and expertise from Trina Solar, a proven and bankable module manufacturer. As an all-in-one smart solar solution, TrinaPro combines industry-leading ...
