

What is a portable charger & power bank?

Portable chargers and power banks are the best ways to keep your devices running no matter where you are. They're lightweight, small, and can easily fit into your pocket or purse. However, there's some confusion on what is a powerbank and how it differs from portable chargers.

What is a power bank?

A power bank is the same as a portable charger, both designed to charge devices like smartphones and tablets on the go. These compact and rechargeable battery packs are essential for travel or emergencies, providing a convenient solution to keep your devices powered without relying on a wall outlet.

How to charge a power bank?

Another way to charge a power bank is by using a charging station. Other ways to charge a power bank are using your laptop USB port, a car cigarette lighter, or using a solar charger. However, all these methods are slower and you should avoid them unless you can't access a wall charger.

Should you use a power bank or phone charger?

With a power bank or phone charger, you can make sure your cell phone's battery is ALWAYS topped up.
